Kal-Haven Trail - Open to public at no cost.			
Consolidated services that Geneva Township participates in do not provide cost savings but provides better services for all of us, that any one of us could not provide individually. These services provide for our Health, Safety and Welfare.			
Proposed consolidation with Van Buren County Road Commission will not provide cost savings but will enhance CR 380 which will benefit all the traveling public in Geneva Township. It will decrease the cost of constant repairs with hot mix.			
Proposed Black River access at CR 384 & 68th Street will provide natural environmental opportunities for kayaking for area residents and tourists. Use of all the access is free of charge.
