## **LANGDON DRAIN ARLINGTON TOWNSHIPS DAY OF REVIEW INFORMATION**

The Langdon drain was established in 1884 and is Arlington Township. The drain is 2.48 miles in length.

### **Maintenance 2008-2009**

Maintenance on the Langdon drain consisted of open ditch clean-out and hand cleaning by the Sheriff's Work Program. The total maintenance cost from 2008 to 2009 was \$12,388. In efforts to lessen the yearly drain assessment amount the cost was spread over a 2 year time frame. The municipalities are paying at-large assessments totaling 40% of the cost which includes Van Buren County and Arlington Township. The remaining 60% of the total cost are spread over the 129 parcels in the drainage district.

A map of the drain and drainage district is provided on the county drain office website.
